

ENERGOHORSE 14%

GMO-Free, Oat-Free Pellet Feed for Horses

This pellet-form complete feed is designed for sports horses.

Establish a strong nutritional foundation for your horse by providing sufficient roughage and ensuring access to fresh drinking water. For optimal results, it's important to note that the amount of ENERGOHORSE 14% in the feed ration should not exceed half of the total feed ration. This guideline applies to all horses except those younger than one year old or those engaged in intensive work.

Ingredients:

Barley, wheat bran, wheat grits, extruded corn, alfalfa flour, corn flour, sunflower oil, crushed sunflower, heat-treated soy, vitamins and minerals, antioxidants

Storage Method:

Store in a dry, cool, and dark place. Improper storage may weaken the active ingredients.

Feeding Guidelines:

- It is advisable to use ENERGOHORSE 14% along with high quality fiber feed (hay)
- Daily Portion: feed 300-700g per 100kg of body weight, divided into 2-3 feedings throughout the day
- For horses facing challenges in gaining weight, consider combining ENERGOHORSE 14% with ENERGOHORSE Vital 14% muesli
- Supplement Recommendation: Use GEBI Vitamin or Molasses Salt Lick to provide the necessary minerals

ENERGOHORSE 17%

GMO-Free, Oat-Free Pellet Feed for Horses

This pellet-form complete feed is designed for sport horses receiving very regular and intensive training.

Establish a strong nutritional foundation for your horse by providing sufficient roughage and ensuring access to fresh drinking water. For optimal results, it's important to note that the amount of ENERGOHORSE 17% in the feed ration should not exceed half of the total feed ration. This guideline applies to all horses except those younger than one year old or those engaged in intensive work.

Ingredients:

Barley, wheat bran, wheat grits, extruded corn, alfalfa flour, corn flour, sunflower oil, crushed sunflower, heat-treated soy, vitamins and minerals, antioxidants

Storage Method:

Store in a dry, cool, and dark place. Improper storage may weaken the active ingredients.

Feeding Guidelines:

- It is advisable to use ENERGOHORSE 17% along with high quality fiber feed (hay).
- Daily Portion: Feed 300-700g per 100kg of body weight, divided into 2-3 feedings throughout the day.
- For horses facing challenges in gaining weight, consider combining ENERGOHORSE 17% with GEBI ENERGOHORSE Vital 14% muesli.
- Supplement Recommendation: Use GEBI Vitamin or Molasses Salt Lick to provide the necessary minerals

ENERGOHORSE VITAL Muesli 14% GMO free, oat free muesli

Energohorse Vital 14% is a specially formulated muesli designed for horses in regular active or medium heavy training. It contains flaked cereals to improve digestibility, with less risk of digestive tract problems. This mix not only offers additional fiber for your horse but also comes with a delicious taste. Establish a strong nutritional foundation for your horse by providing sufficient roughage and ensuring access to fresh drinking water. For optimal results, it's important to note that the amount of ENERGOHORSE Vital 14% in the feed ration should not exceed the third of the total feed ration.

Ingredients:

Barley flakes, oat bran, wheat bran, corn flakes, sugar beet molasses pulp, alfalfa flour, corn, barley, calcium carbonate, sunflower oil, sunflower seed crumbs, sodium chloride, beetroot, herbal extracts (garlic, fennel, basil, coriander, parsley), vitamins and mineral substances, pro- and prebiotics, aroma, antioxidants

Storage Method:

Store in a dry, cool, and dark place. Improper storage may weaken the active ingredients.

Feeding Guidelines:

- Limit this feed to one-third of the daily ration (including hay) due to its higher vitamin and trace element content
- Daily portion: feed approximately 200-300g per 100kg of body weight per day, divided into 2-3 meals.
- Suitable for regularly working horses with an average need for concentrated feed
- Ideal for horses that efficiently process feed (including overweight horses)
- Consider mixing the muesli with water for older horses, those prone to eating hastily, and horses with dental, chewing, or throat issues.
- For horses facing difficulty gaining weight, mix it with ENERGOHORSE 17% or ENERGOHORSE 14 %
- Important: No additional mineral supplements (like salt licks) are required, due to its high mineral content

ENERGOHORSE Basic

GMO-Free, Oat-Free Pellet Feed for Horses

This pellet-form complete feed is designed for sports horses in light work and pleasure horses in medium-intensive work. It is an optimal feed for horses that are not regularly involved in strenuous work, helping them achieve and sustain a fit and energetic condition. With its low protein content, it helps eliminate the risks associated with high protein intake.

Establish a strong nutritional foundation for your horse by providing sufficient roughage and ensuring access to fresh drinking water. For optimal results, it's important to note that the amount of ENERGOHORSE Basic in the feed ration should not exceed half of the total feed ration. This guideline applies to all horses except those younger than one year old or those engaged in intensive work.

Ingredients:

Barley, wheat bran, wheat grits, extruded corn, corn flour, alfalfa meal, sunflower oil, crushed sunflower, heat-treated soy, vitamins, minerals, and antioxidants.

Storage Method:

Store in a dry, cool, and dark place. Improper storage may weaken the active ingredients.

Feeding Guidelines:

- It is advisable to use ENERGOHORSE Basic along with high quality fiber feed (hay)
- Daily Portion: Feed 300-700g per 100kg of body weight, divided into 2-3 feedings throughout the day
- For horses facing challenges in gaining weight, consider combining ENERGOHORSE Basic with GEBI Energohorse Vital 14% muesli
- Supplement Recommendation: Use GEBI Vitamin or Molasses Salt Lick to provide the necessary minerals
